

Brand of Quality and Trust

**A Gift from Brazilian Nature**  
TO YOUR HEALTH

Established in 1992, with the aim of providing a healthy and joyful life, **MN Própolis** gears its activities towards research, development and manufacturing of healthy and functional foods.

**MN Própolis** is a Brazilian company, based in Mogi das Cruzes city, state of São Paulo, and has become a benchmark in the manufacture of Green Propolis, **the most featured one** in national and international markets, reaching countries such as Japan, China, France, Germany, USA, Canada, Turkey, South Korea, Malaysia and others.

Using **high technology** and aiming at **technical excellence** in its production, **MN Própolis** was the first beekeeping company in Brazil to receive the organic certificate for its products, as well as the Good Manufacturing Practices certification. Our practices and ingredients are also approved by the islamic and jewish laws.

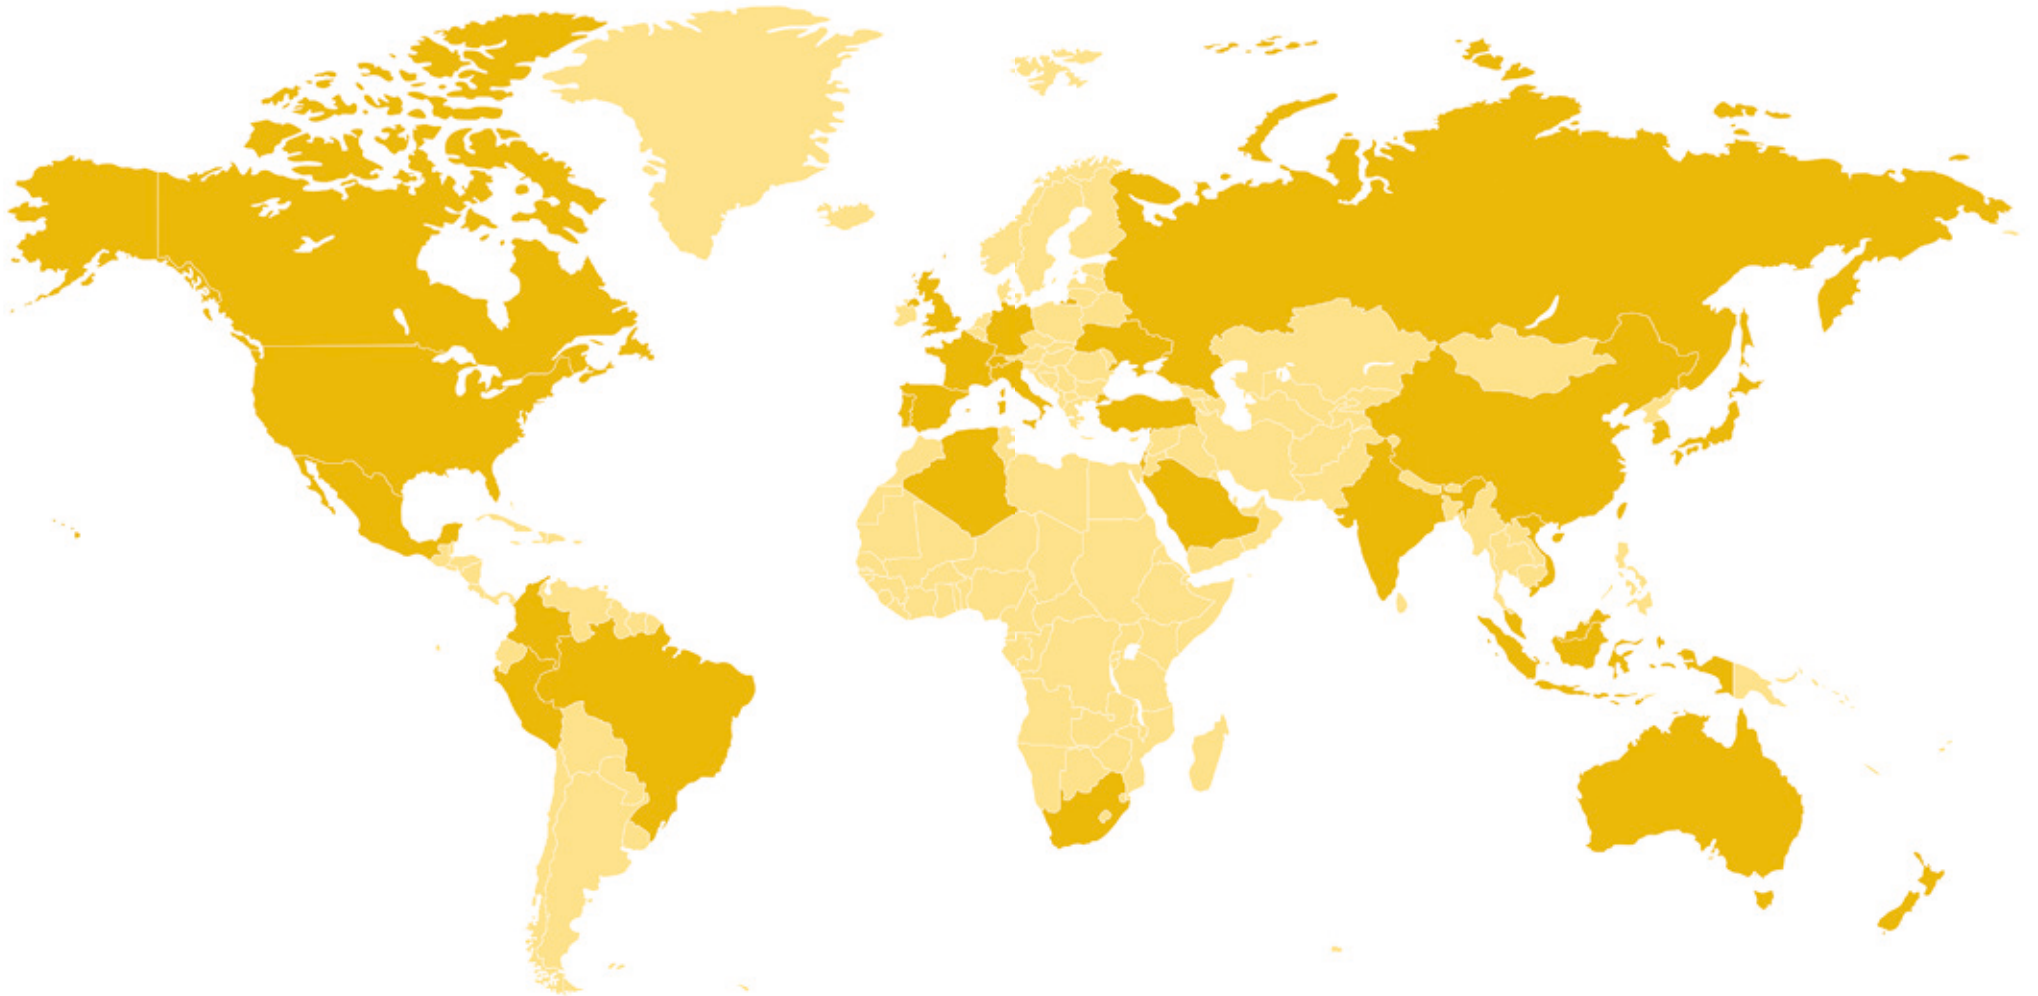

With **high quality raw materials** and laboratorial analysis we guarantee the safety, quality and reliability of our products. And with an innovative spirit, we are constantly in search of new alternatives for wellbeing and health, always keeping in mind a sustainable and ecologically correct development.

**MN Própolis**  
Factory located at  
Mogi das Cruzes /SP - Brasil

## We are Global

JAPAN - CHINA - UNITED STATES - CANADA - SOUTH KOREA - FRANCE - GERMANY - SOUTH AFRICA - SWITZERLAND - ITALY - VIETNAM - INDONESIA - AUSTRALIA - HONG KONG - MALAYSIA - TURKEY - SAUDI ARABIA - INDIA - SINGAPORE - NEW ZEALAND - MEXICO - ISRAEL - ENGLAND - UKRAINE - SPAIN - ALGERIA - PORTUGAL - RUSSIA - PERU - COLOMBIA

# Raw Materials

## Raw Green Propolis 5kg

Ingredients: Raw Green Propolis  
Conventional and Organic

## Lyophilized Propolis Extract 5kg

Ingredients: Propolis Extract  
*Water soluble Powder*

## Concentrated Propolis Extract 5kg

Ingredients: Propolis Extract  
(propolis and ethyl alcohol)  
Conventional and Organic

## Propolis in Powder 5kg

Ingredients: Brazilian Green Propolis  
Conventional and Organic

# Propolis Extract

Since 1992 we manufacture the highest quality propolis extracts with the best raw materials

## Propolis Extract Ouro 30mL

Ingredients: Green Propolis and Ethyl Alcohol

Brix: > 48%  
Dry Extract: > 25% (w/v)  
Flavonoids: >16mg/mL

## Aqueous Propolis Extract 30mL

Ingredients: Propolis and Water

Brix: > 29 ~ 31%  
Dry Extract: > 18% (w/v)  
Flavonoids: > 6mg/mL

## Organic Propolis Extract 30mL

Ingredients: Organic Propolis and Organic Ethyl Alcohol

Brix: > 34%  
Dry Extract: > 15% (w/v)  
Flavonoids: > 7mg/mL

## Propolis Extract Amarelo 30mL

Ingredients: Green Propolis and Ethyl Alcohol

Brix: > 41%  
Dry Extract: > 20% (w/v)  
Flavonoids: > 12mg/mL

## Propolis Extract MN Provitta 30mL

Ingredients: Propolis and Ethyl Alcohol

Brix: > 34%  
Dry Extract: > 11% (w/v)  
Flavonoids: > 7mg/mL

## Propolis Extract 20L

We provide our Propolis Extracts both in retail packages and in 20L plastic drums

# BRAZILIAN GREEN PROPOLIS

## ABOUT PROPOLIS

In the busy routine of a beehive, health is one of the group's priorities. Because of this, bees spend much of their energy collecting resins in the surrounding vegetation to produce a powerful protection: propolis. The bees seal all cracks with this product to take advantage of the best of its physical and biological properties. Propolis isolates the internal environment in order to maintain the ideal temperature, to prevent the entry of wind and rain and to shield the area against bacteria, viruses and fungi that could endanger the lives of the bees. **Increase of the immune system, antibacterial and antiviral properties** are among the many benefits that propolis can bring to humans.

FLAVONOIDS

ARTEPILLIN-C

PHENOLIC  
COMPOUNDS

## THE FAMOUS GREEN

Green Propolis is a **gift from Brazilian nature** to your health. It has a high number of natural components with **amazing levels of biological elements**. Its effects are directly related to the many polyphenols and phenolic acids it contains such as **Artepillin-C**, an active ingredient which in recent years has been the subject of numerous scientific studies.

There are different types of propolis around the world, depending on the geographical position of the beehive, the Flora found in the area and the seasonal availability of it, and the species of bee. But it's specially the ecosystem of the region where the bees collect their resin that most affects the composition of the propolis. The growing tops of *Baccharis dracunculifolia* are the providers of the resin used by *Apis Mellifera* to produce Brazilian Green Propolis, **one of the Nature's riches**.

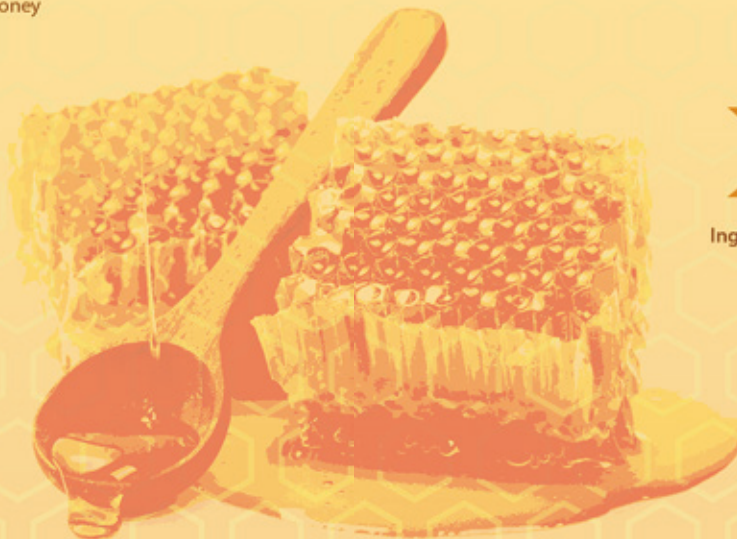

# Organic Honey

**Organic Honey**  
200g, 280g & 550g

Ingredients: Organic Honey

**Honey with Propolis Extract**  
200g, 280g & 550g

Ingredients: Organic Honey and Organic Propolis

**Honey with Royal Jelly**  
200g, 280g & 550g

Ingredients: Organic Honey and Royal Jelly

**Honey with Bee Pollen**  
200g, 280g & 550g

Ingredients: Organic Honey and Organic Bee Pollen

**Wild Flower Pure Honey**  
25Kg

Ingredients: Wild Flower Pure Honey  
Conventional and Organic

# Sprays

# Supplement

## Honey and Propolis Extract Spray S 35ml

Ingredients: Propolis Extract (propolis and ethyl alcohol), Honey, Water, and Mint Flavor

Dry Extract: > 35% (w/v)  
Flavonoids: > 3mg/mL

## Organic Honey and Organic Propolis Extract Spray S Organic 35ml

Ingredients: Organic Propolis Extract (organic propolis extract and ethyl alcohol), Organic Honey and Distilled Water

Dry Extract: > 34% (w/v)  
Flavonoids: > 3mg/mL

## Honey and Propolis Extract Spray AMARELO 35ml

Ingredients: Honey, Water, Propolis Extract (propolis and ethyl alcohol) and Mint Flavor

Dry Extract: > 30% (w/v)  
Flavonoids: > 1mg/mL

## Organic Honey and Organic Propolis Extract Spray BR Green 35ml

Ingredients: Organic Honey, Organic Propolis Extract (organic propolis and ethyl alcohol)

Dry Extract: > 40% (w/v)  
Flavonoids: > 1mg/mL

## Propolis Extract Capsule 40g

Ingredients: Lyophilized Propolis Extract, Linseed Oil and Vitamin E

Flavonoids: > 24mg/g  
Phenolic Compounds: > 60mg/g  
Artepillin-C: > 2%

## Propolis Extract Tablets 50g

Ingredients: Propolis extract, shark cartilage, dehydrated agaricus mushroom and maltodextrin

Flavonoids: > 10mg/g (2,5mg/tablets)  
Phenolic Compounds: > 24mg/g (6mg/caps)  
Artepillin-C: > 0,4%

# LYOPHILIZED PROPOLIS<sup>EXTRACT</sup>

## ABOUT LYOPHILIZED PROPOLIS

**MN Propolis's** Lyophilized Propolis Extract is produced from this lyophilization technology of Brazilian green propolis, obtaining a water-soluble powder with **high levels of bioactive compounds, such as flavonoids, phenolic compounds and mainly Artepillin-C.** In addition to these advantages, due to its lower weight and volume, the Lyophilized Propolis Extract enables the reduction of logistics, storage and processing costs in industries such as food, pharmaceutical, cosmetic and supplementation.

## PRODUCT CHARACTERISTICS

In conventional dehydration processes, foods are subjected to air heating to remove water through evaporation. The result is a dehydrated food, however, with its nutrients and active ingredients damaged by heat and oxidation. To obtain a dehydrated product with **its nutrients and active ingredients without damage.** **MN Propolis** acquired the dehydration process called Freeze Drying, where the food is subjected to freezing under vacuum (without contact with air). At the end of the process, the water contained in the solid state food goes directly to the gas state (sublimation), without heating and oxidation, **preserving all the nutrients of the product.**

## EQUIPAMENT'S CHARACTERISTICS

The lyophilization equipment (Freeze Dry Machine), due to the complexity of the project and the process, has a cost of **5 to 8 times higher than the Spray Dry Machine.** The cost of the process is higher also in the Lyophilization process due to parameters that must be controlled. Those parameters are not required in the atomization dehydration process (Spray Dry). **However this cost is compensated in the quality of the final product.**

MORE BIOACTIVE COMPOUNDS  
UP TO 50% LESS VOLUME  
EXPORTED WORLDWIDE

**MN Própolis' Bee Farm**  
Paraibuna City, São Paulo State - Brazil
