- 2 brands
- First commercial activities

2022

Number of Employees: 30+

- Export to 30+ countries
- 3 affiliates
- 12 brands, 34 products SKUs

VISION, VALUES

VISION

Our vision is to become a significant regional player in the broader health care sector. We aim to become a pioneering brand and market-maker platform that co-develops and co-owns products with selected national and regional partners, **through close ties and strategic partnerships.**

VALUES

A common denominator in our business is the concept of **quality**, covering everything from the choice of our suppliers and the raw materials that we use in our products, to the finished product on the shelf and to our business practices.

And, to reach our target, we have a set of values that we apply to our business, like we do to our lives: Integrity, Openness, Flexibility, Punctuality.

STRATEGY

The corporate strategy of Aniva International focuses on the following key components:

1. Develop a unique business model of an interactive and collaborative platform with its network of distributors, R&D partners and suppliers.
2. Focus on continuous product innovation, with particular attention to efficacy, safety and quality.
3. Exhibit consistent operational excellence.
4. Optimize its geographic coverage.

A B O U T

PEOPLE

Aniva International comprises a **multicultural** group of people with a long and successful track record: professionals with a solid experience in international business development, scientists with years of research and academic excellence and people with long manufacturing experience.

In order to enrich its product portfolio and strengthen its position in the therapeutic areas of its interest, Aniva cooperates not only with leading R&D professionals but also with various biotechnology start-ups and university incubators.

To provide scientific evidence for its products and to support their efficacy and safety, Aniva International collaborates with a team of researchers and advisors, who perform randomized double-blind and placebo-controlled clinical trials and also provide comprehensive scientific backing.

We are dedicated to build an entrepreneurial culture where our employees feel inspired and rewarded and have the opportunity to demonstrate their skills and abilities. We foster to create an environment that offers the people the experiences and the means to **reach their potential.**

GLOBAL PRESENCE

30+

COUNTRIES

35

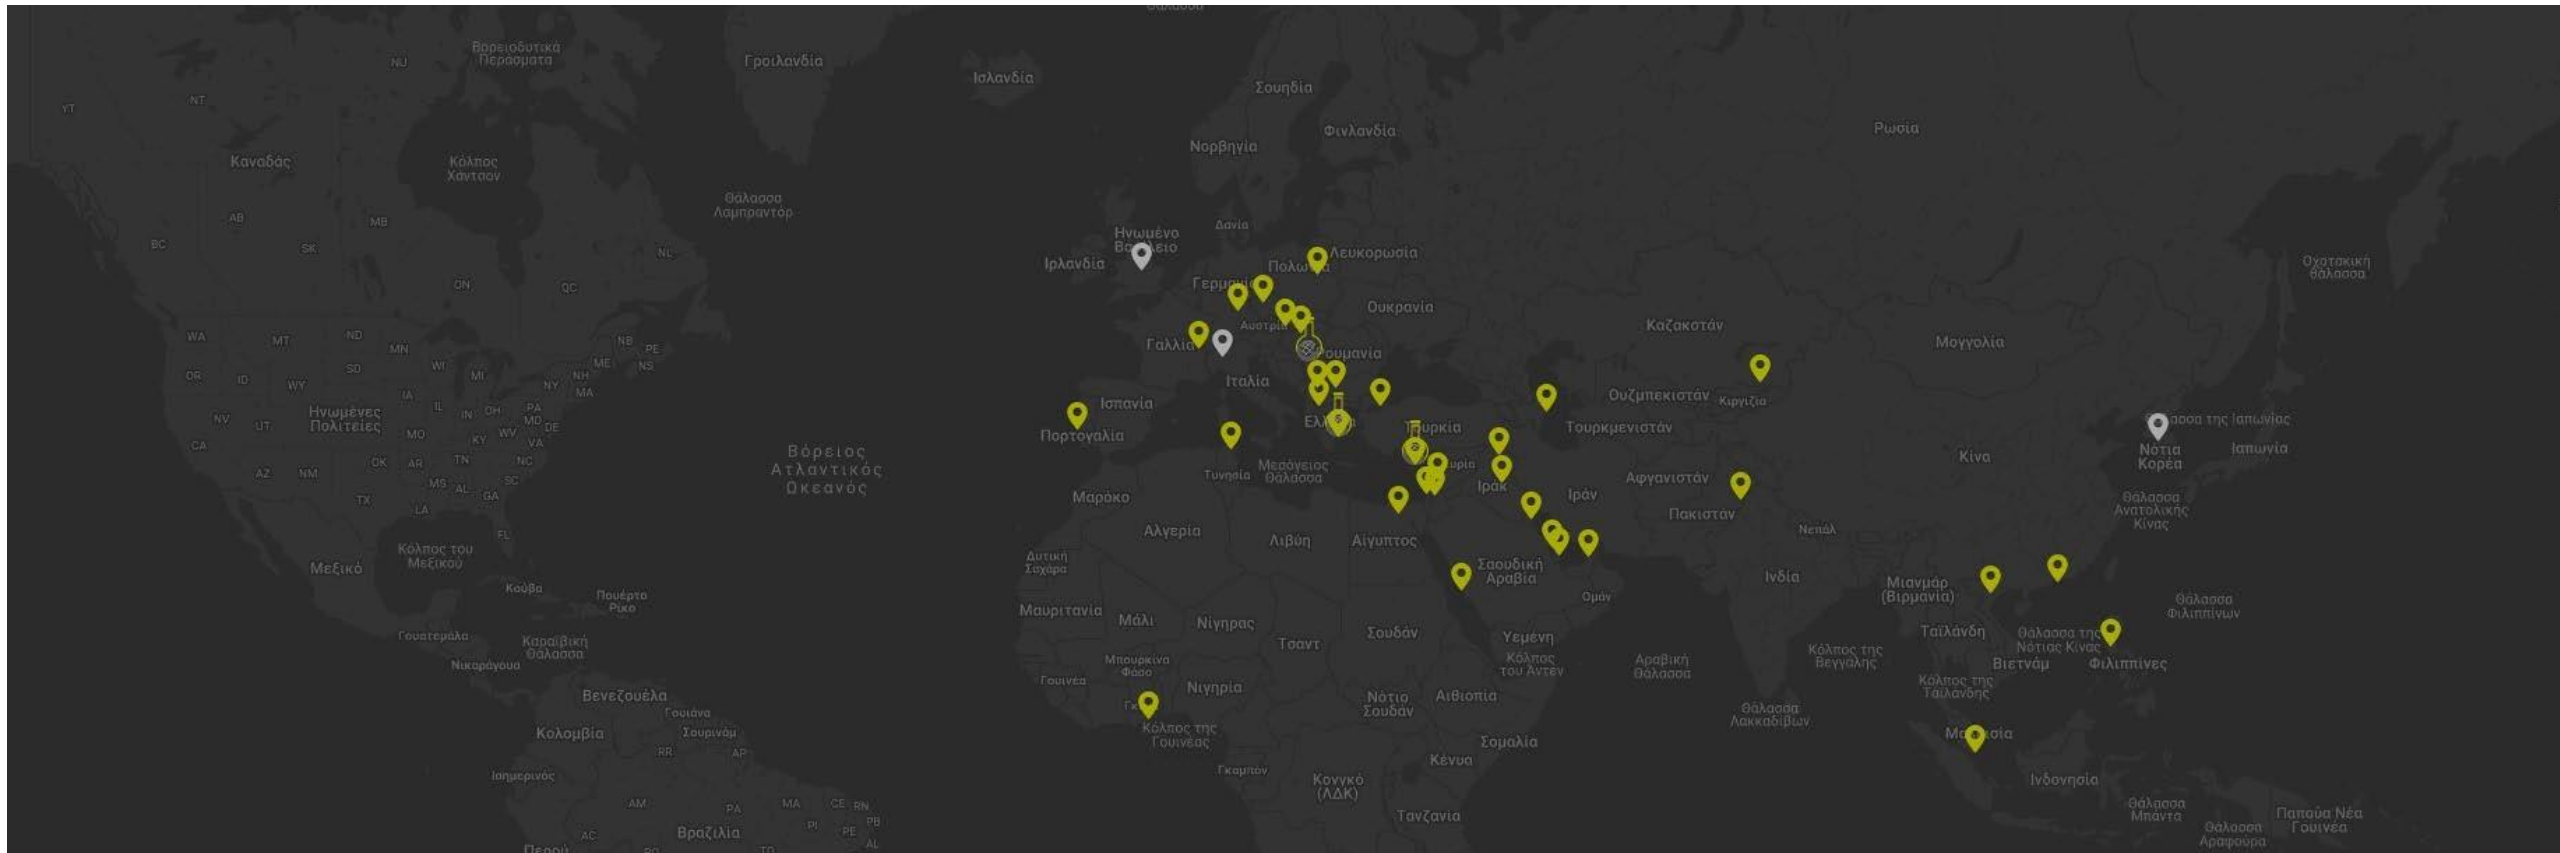

DISTRIBUTORS

3

AFFILIATES

Aniva International though only in its 5th year of operation has an increasingly global presence with a network of affiliates, partners and distributors across many regions. This presence encompasses 5 major geographic areas, Europe, CIS, MENA, Africa and South East Asia. Through this network Aniva brands are already distributed in more than 30 countries and 3 affiliates in Serbia, Cyprus and Greece.

Aniva Int. serves its distributors and partners through a central logistic hub in Athens and also through its associated factories in the UK, Norway, Belgium, Spain, Greece and S. Korea.

A B O U T

THERAPEUTIC AREAS

1. Ophthalmology
2. Neurology
3. Rheumatology
4. Gastroenterology
5. Endocrinology
6. Orthopedics & Pain
7. Wellbeing Vitality
8. Dermatology

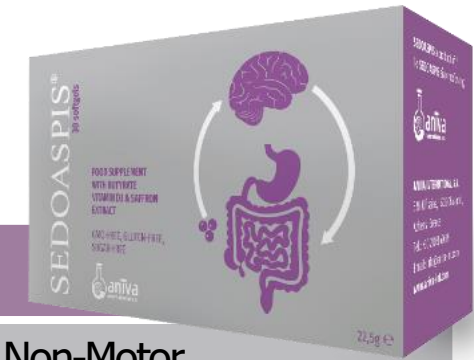

A grayscale, high-magnification image of neurons, showing their cell bodies (soma) and branching processes (dendrites and axons) against a dark background. The neurons are interconnected, forming a complex network.

Our strategy is to maximize the value of our company as a partner to these audiences by offering them products with clinical studies and scientific evidence able to address their needs, make a significant impact on patients' care and improve their wellbeing.

Feature	NEUROASPIS®
Sales area	Neurology / Neurodegenerative / MS / Vascular Dementia
Product type	Food supplement/Nutraceutical
Indications	Deals with symptoms of MS
Additional indications	Vascular Dementia Autoimmune/Neurodegenerative disorders (i.e. Alzheimer, Parkinson, Amyotrophic Lateral Sclerosis (ALS), Huntington, Dementia, Lupus, Arthritis) cardiovascular prevention, cerebrovascular prevention, epilepsy, normalization of blood pressure and triglycerides.
Science	Strong anti-inflammatory and antioxidative properties. Polyunsaturated fatty acids and strong antioxidants fight against oxidative stress and inflammation and promote neuroprotection in patients with MS symptoms like fatigue, low energy, morning stiffness & mood changes.
Clinical Data	"Phase III, randomised, double-blind, placebo-controlled trial of Neuroaspis plp10 as an adjuvant treatment for relapsing multiple sclerosis: the MINERAL Study" Published in BMJ Open 2012 https://neurologyopen.bmj.com/content/4/2/e000334
Ingredients	Polyunsaturated fatty acids (EPA, DHA, GLA, LA), Gamma-tocopherol, Alpha-tocopherol (Vit. E), Beta-carotene (Vit. A)
Proposed dosage	Multiple Sclerosis: 20ml / day either 30' before dinner Vascular Dementia: 10ml / day either 30' before breakfast or 30' before supper.
Website	https://www.aniva-int.com/products/healthcare-products/neuroaspis/

CHRONIC INFLAMMATIONS

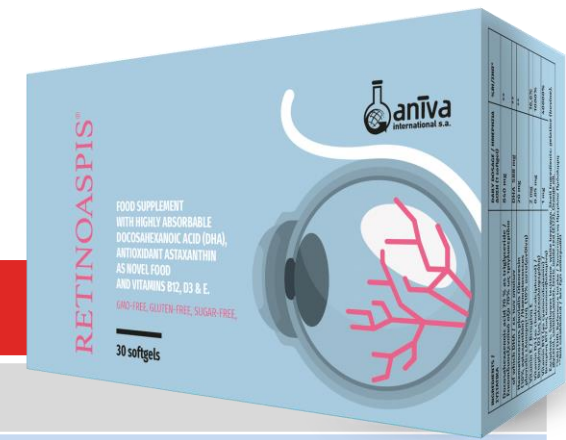

Feature	SEDOASPIS
Sales area	Chronic Gastrointestinal Disorders IBS – IBD / Neurodegenerative (Parkinson’s Non-Motor Symptoms) / Neurodevelopmental Disorders
Product type	Food supplement/Nutraceutical
Indications	Deals with non-motor symptoms of PD & IBS, IBD
Additional indications	Neurodevelopmental Disorders
Science	Butyrate triglycerides are the most well-absorbed source of butyric acid, the most important product of gut microbiota, playing an important role to gut-brain communication. Butyrate and saffron extract are ingredients with anti-inflammatory and antioxidative properties, that in combination with Vitamin D3 alleviate non-motor symptoms like constipation, mood changes and sleep disorders in chronic disease patients.
Ingredients	Butyrate Triglyceride*, Crocus Sativus L. Extract (2% saffranal), Vitamin D3 (Cholecalciferol) * Butyrate as Corebiome®. Butyrate is an organic acid produced by gut microbiota. CoreBiome® is a registered trademark under exclusive global distribution by Compound Solutions Inc. (USA)
Proposed dosage	1 softgel capsule / day
Website	https://www.aniva-int.com/products/healthcare-products/sedoaspis/

Feature	NEVRAPLUS Retard
Sales area	Neurology / Chronic pain / Peripheral Neuropathy
Product type	Food supplement/Nutraceutical
Indications	Deals with Chronic & Neuropathic pain
Science	Alpha-lipoic acid (ALA) is a strong antioxidant backed by strong scientific evidence on its safety and efficacy on chronic pain management as proposed by FDA. The combination of ALA with vitamins B6, B9, B12 & D3 acts effectively on chronic pain and conditions of peripheral neuropathies.
Ingredients	Alpha lipoic acid (ALA), Vitamins (B6, B9, B12 & D3) <i>With piperine as bioenhancer</i>
Proposed dosage	1 tablet daily
Website	https://www.aniva-int.com/products/healthcare-products/nevraplus/

Feature	EYEASPIS DE CAPS
Sales area	Ophthalmology / Rheumatology
Product type	Food supplement/Nutraceutical
Indications	Chronic Dry Eye Disease & Meibomian Gland Dysfunction
Additional indications	<ul style="list-style-type: none"> • Sjogren syndrome induced dry eye syndrome • Dry eye syndrome caused by a surgical intervention or draft versus host disease • Dry eyes caused by Grave's disease
Science	<p>Polyunsaturated Fatty Acids (PUFAs) and especially EPA is the main ingredient of lipid layer of tear film. EPA acts beneficially on Dry-Eye syndrome symptoms, by reducing inflammation and providing the best source for meibum composition. Additionally, maqui berry extract, a novel ingredient for the management of Dry-Eye disease, promotes tear production by protecting lacrimal glands from oxidative damage. The combination with Vitamin D and B12 offers a holistic mechanism of action for the management of chronic dry eye disease.</p>
Clinical Data	<p>'Effect of Oral Re-esterified Omega-3 Nutritional Supplementation on Dry Eyes' Published in Cornea 2016 https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4975557/</p>
Ingredients	Highly Refined and Concentrated Re-esterified Triglyceride Fish Oil (80% EPA), Maqui berry extract, Vitamin D3, Vitamin B12
Proposed dosage	Adults: 1-2 capsules per day
Website	https://www.aniva-int.com/products/healthcare-products/eyeaspis-dry-eye/

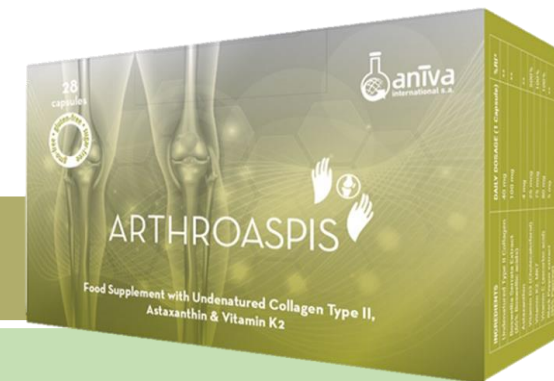

Feature	RETINOASPIS
Sales area	Ophthalmology / Endocrinology / Diabetology
Product type	Food supplement/Nutraceutical
Indications	Delays the onset of Diabetic Retinopathy (DR) in Diabetic patients & Slows down the progression to Diabetic Retinopathy
Science	Omega-3 (DHA/EPA) assist in the suppression of retinal inflammation and support retinal cellular metabolism, structure and function. It is clinically validated that high DHA supplementation may delay the onset and progression of DR in patients with diabetes.
Clinical Data	Based on 5 clinical studies. Clinical studies on the bioavailability & absorption of re-esterified triglycerides
Ingredients	Highly Refined and Concentrated Re-esterified Triglyceride Fish Oil (EPA: DHA in a ratio 1:5), Astaxanthin, Vitamins D3 & B12 Natural mixed tocopherols <i>Flavor: Natural Berry / Orange</i>
Proposed dosage	1-2 softgels daily
Website	https://www.aniva-int.com/products/healthcare-products/eyeaspis-re-d/

OPTOASPIS

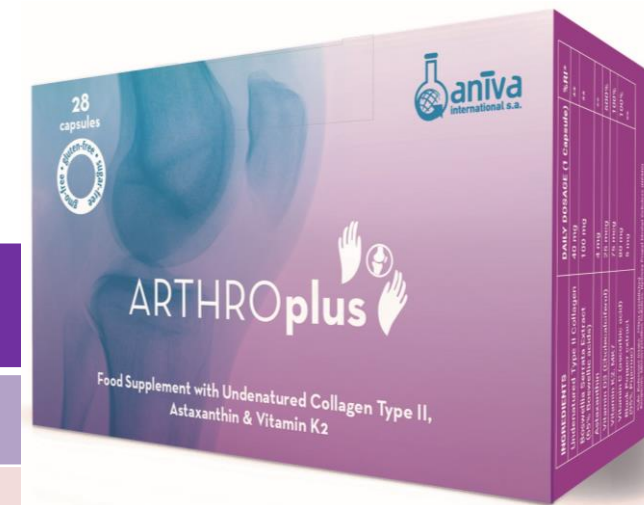

Feature	
Sales area	Ophthalmology
Product type	Food supplement/Nutraceutical
Indications	Manages and slows down the progression of glaucoma
Science	Oxidative stress and high intraocular pressure play a crucial role in the pathogenesis of glaucoma. The unique combination of <i>Coleus Forskohlii</i> extract which regulates intraocular pressure with highly antioxidative ingredients and vitamins can offer a holistic protection of optic nerve cells from degradation and oxidative damage.
Ingredients	<i>Coleus Forskohlii</i> extract, Black Currant extract, Astaxanthin, Vitamins B9 & B12
Proposed dosage	1 tablet daily
Website	https://www.aniva-int.com/products/healthcare-products/optoaspis/

Feature	ARTHROASPIS
Sales area	Orthopedics / Rheumatology
Product type	Food supplement / Nutraceutical
Indications	Joint degeneration / Osteoarthritis
Science	Daily strain of joints and ageing can lead to joints cartilage degradation and osteoarthritis. Arthroaspis consists of ingredients with high anti-inflammatory and antioxidative properties, an essential combination for the management of inflammation and oxidative stress, the main threat for cartilage degradation.
Ingredients	<i>Undenatured Type II Collagen, Astaxanthin, Vitamins D3 & K2 With Vitamin C, Boswellia Serrata and Piperine</i>
Proposed dosage	1 tablet daily
Website	https://www.aniva-int.com/products/healthcare-products/arthroaspis/

Feature	ARTHROPLUS
Sales area	Orthopedics / Rheumatology
Product type	Food supplement / Nutraceutical
Indications	Joint degeneration / Osteoarthritis stage III & IV
Science	Daily strain of joints and ageing can lead to joints cartilage degradation and osteoarthritis. Stage III & IV osteoarthritis is characterized by low joint mobility and intense pain. Arthroplus with its unique formulation is able to deal with the symptoms of advanced osteoarthritis as improves joint mobility, lubricates the joints, restructures the cartilage and slows down cartilage degeneration.
Ingredients	<i>High Molecular Weight Hyaluronic acid, Eggshell Membrane (ESM), Vitamin D3, selenium and piperine</i>
Proposed dosage	1 tablet daily
Website	

Feature	ANIFERIN
Sales area	GPs / Haematologists / Gynecologists
Product type	Food supplement / Nutraceutical
Indications	Iron Deficiency / Iron Deficiency Anemia (IDA)
Science	<p>Anaemia is a serious global public health problem that particularly affects young children and pregnant women. WHO estimates that 42% of children less than 5 years of age and 40% of pregnant women worldwide are anaemic. The most common cause of anemia is iron deficiency. Aniferin with its unique combination is able to deal with iron deficiency and IDA as it restores iron levels, enhances iron absorption, promotes red blood cells formation and boosts immune system. Additionally, Aniferin promotes normal bowel function for the optimal benefit of the ingredients.</p>
Ingredients	<i>Ferrous bisglycinate, lactoferrin, probiotics, prebiotics, Vitamin C, Vitamins B9 & B12</i>
Proposed dosage	1 sachet every other day
Website	

Feature	PROBIOLYTE
Sales area	Gastroenterology / Pediatrics / Dermatology
Product type	Food supplement/Nutraceutical
Indications	Reduce symptoms & duration of diarrhea
Science	Probiotics are responsible for the gut homeostasis and food fermentation. Probiolyte is a combination of probiotics, prebiotics and electrolytes hat can effectively protect against harmful bacteria, enhance body's immune system, restores body's fluids and provide energy.
Ingredients	<i>11 strains of Probiotics, Prebiotics (GOS), Electrolytes (citrate, potassium & sodium salts), Zinc, Glucose Banana Powder and Flavor</i>
Proposed dosage	1 to 10 sachets per day for children above 6 months and adults.
Website	https://www.aniva-int.com/products/healthcare-products/probiolyte/

Feature	ANANTRA Female
Sales area	Gynecology
Product type	Food supplement/Nutraceutical
Indications	Female Sexual Dysfunction (FSD)
Science	FSD is a multifaceted disorder, in which organic, hormonal and psychological factors contribute to it. Anantra Female is a tailor-made formulation especially for the female SD with 14 clinically validated ingredients, that act with a mechanism of action in multiple levels. (psychological, neurological, vascular and pain)
Ingredients	<i>Eurycoma longifolia (Tongkat Ali), Lepidium meyenii Maca), Crocus sativus (Saffron), Turnera diffusa (Damiana), Angelica sinensis (Dong quai), Centella asiatica Gotu kola), Cimicifuga racemosa (Black cohosh), L arginine, Vitamin B3 (Niacin), Green Tea, Zinc, Selenium, Magnesium, Manganese</i>
Proposed dosage	1 tablet daily

Feature	ANANTRA Extended
Sales area	Urologists / GPs / Cardiologists / Psychiatrists - Psychologists
Product type	Food supplement/Nutraceutical
Indications	Erectile Dysfunction (ED)
Science	ED is commonly caused by both organic and psychological factors. Anantra Extended is a 100% natural formulation of 12 clinically validated active ingredients with a double mechanism of action at local and psychological level, to promote virility, vitality & well-being in long-term.
Ingredients	<i>Eurycoma longifolia (Tongkat Ali), Epimedium sagittatum (Horny Goat Weed), Panax Korean Ginseng, Tribulus terrestris, Lepidium meyenii (Maca), L-arginine, Vitamin B3, Green Tea, Zinc, Selenium, Magnesium, Manganese</i>
Proposed dosage	1 tablet daily

Feature	ANANTRA Rapid
Sales area	Urologists / GPs / Cardiologists / Psychiatrists – Psychologists / Pharmacies
Product type	Food supplement/Nutraceutical
Indications	Erectile Dysfunction (ED)
Science	ED is commonly caused by both organic and psychological factors. Anantra Rapid is a 100% natural formulation of 12 clinically validated active ingredients with a double mechanism of action at local and psychological level, to elicit strong virility promoting effect before sexual intercourse.
Ingredients	<i>Eurycoma longifolia (Tongkat Ali), Epimedium sagittatum (Horny Goat Weed), Panax Korean Ginseng, Tribulus terrestris, Lepidium meyenii (Maca), L-arginine, Vitamin B3, Green Tea, Zinc, Selenium, Magnesium, Manganese</i>
Proposed dosage	2 tablets at once

Feature	ANIVAGENE™
Sales area	Dermatologists / Pharmacies
Product type	Cosmetics
Indications	Hair Loss & Hair Care
Science	A combination of exclusive active ingredients, extra-gentle dermatologically & clinically tested formulation for stronger and healthier hair. Free of SULFATES, SLS/SLES/ALS
Ingredients	ANAGELINE® Bio, CAPIXYL, KAPILARINE®, BIOECOLIA®, AMANDULINE® HC Bio, ADANDRINE®
