

Product Information

▶ **About Vesta LipoQuest™**

Liposomal supplements are an innovative way to deliver nutrients and compounds directly to the cells in your body. These tiny, spherical structures are made up of a phospholipid bilayer that encloses a liquid or powder inside and is similar to the cell membrane in your body. This allows the liposomes to be an effective carrier of vital nutrients such as vitamins and allows them to easily pass through the digestive system to be absorbed.

▶ **LipoQuest™ Proprietary Lipid Technology**

Our exclusive liposome technology allows us to produce liposomes with high structural integrity, meaning that they maintain their shape and effectiveness over time. This is in contrast to other liposomal products on the market, which may be less uniform and may not be true liposomes at all. LipoQuest™ product takes the benefits of liposomes to the next level by encapsulating vitamin within these microscopic lipid droplets. This advanced delivery system ensures that our ingredients are highly stable and bioavailable, resulting in superior results that consumers can trust.

Key Benefits of Liposome Delivery

Enhanced absorption

Broad range of nutrient delivery

Increased bioavailability

Improved stability

LipoQuest™ Vitamin Products:

- **Vitamin C** - water-soluble nutrient that plays a vital role in supporting a healthy immune system and promoting collagen production
- **Vitamin B12** - essential nutrient that plays a vital role in the proper functioning of the brain and nervous system, the formation of red blood cells, and metabolism
- **Vitamin D3** - fat-soluble nutrient that is essential for maintaining healthy bones, supporting a healthy immune system, and regulating calcium/phosphorus levels
- Additional Vitamin custom formulations available upon request

Packaging and Storage

- **Store in cool dry place**
- **Minimum pack Size: 1kg**

INNOVATIVE PRODUCTS AT COMPETITIVE PRICE

Allergen Free, Non-GMO

Vesta's proprietary LipoQuest™ is lecithin extracted from sunflower source, which provides all-natural and allergen free. Accordingly our liposomes are safer for use and have improved absorption. This is especially important as not all liposomes are sourced allergen-free and may impact those with dietary sensitivities.

Our liposomal vitamin products are superior over others in the market due to our proprietary manufacturing technology that yields the highest quality, made from all-natural ingredients, that translate to a range of improved delivery and efficacy. Whether you are looking to improve your existing nutritional brand or develop a new product, our liposomes offer a natural and effective solution.
