

Ingredients and Solutions

Founded in Italy in 1908 as a family confectionery business, Caremoli has evolved over the past century to become a leading producer and distributor of ingredients, mixes, semi-finished products, dietary fibers, and gluten-free raw materials for the global food market. Our high-quality customized blends have gained wide acceptance and made us more popular among customers worldwide. Our latest venture, Caremoli Gluten Free, offers consumers a wide range of gluten-free and lactose-free mixes and ready-to-eat products. Our commitment to sustainability extends to every aspect of our operations, from sourcing safe ingredients through sustainable methods to ensuring our plants adhere to the highest standards for quality and safety, including FSSC 22000, Kosher, and Halal certifications. Our state-of-the-art R&D lab and experienced technical experts enable us to drive innovation and develop products that meet the ever-changing needs of the food industry. In Italy, our production plant has a blending capacity of 15,000 tons equipped with a UV air filtering system throughout the entire production in order to control and maintain air quality, spray dry and roller dry technologies, full scale production of food creams, and automatized packaging options. In India, our fully automatized plant has 6,000 tons capacity for the production of guar gum powder equipped with internal labs and quality control. All of our production sites are held to the highest levels of quality and are fully certified. Our products are then distributed around the world in more than 14 of our own warehouses in Europe, North America, Middle East and Asia.
