

HENRY LAMOTTE OILS

Pure Marine Oils

HENRY LAMOTTE OILS

Medicinal Cod Liver Oil

We source our Medicinal Cod Liver Oil from Norway and Iceland. The unique wholesome wild-capture quality originates from the fresh livers of North Atlantic cod of the Gadidae family. The fish livers can be traced back to the trawlers.

Medicinal Cod Liver Oil is notable for its high vitamin A and D3 content. We stock a broad range of flavoured qualities and can prepare individually customised varieties with varying vitamin content.

With its high vitamin D3 and Omega-3 fatty acids Medicinal Cod Liver Oil supports both a healthy constitution and strong bones in humans as well as in animals.

We stock veterinary liver oil with standardised vitamin A and D3 content as an economical alternative.

Omega-3 Fish Oils

Our Omega-3-Fish Oils are excellent sources of EPA (eicosapentaenoic acid, C20:5) and DHA (docosahexaenoic acid, C22:6). These fatty acids have a positive effect on our cardiovascular system and contribute to a number of metabolism processes in our body. Omega-3 fatty acids therefore play an important role in our health and well-being.

In addition, pet food benefits from Omega-3 fatty acids contained in our Omega-3 Fish Oils and in particular when feeding biologically appropriate raw food to dogs ensures that they remain healthy.

Our Omega-3 Fish Oils originate from sardines, anchovies, salmon and herrings. As a specialist for fish oils we can supply you with a broad spectrum of blends with specific fatty acid concentrations as well as in both food grade and more economical grades for animal feed.

Omega-3 Marine Oil Concentrates

For your particular requirements we stock EPA- and DHA-rich Omega-3 Marine Oils in wide variety of fatty acid combinations as both ethyl ester as well as triglyceride concentrates. We can provide you with concentrations of up to 90% EPA or 90% DHA.

As we maintain excellent relations with audited producers and our strict quality assurance system we can guarantee flawless and residue-free quality.

Highly concentrated EPA and DHA

Blends	70/10	50/20	33/22	10/70	20/50	10/50	25/35
EPA	70	50	33	10	20	10	25
DHA	10	20	22	70	50	50	35

Other concentrations on request.

Individually blended and sustainable

Our long-standing business relations with producers from all corners of the globe and our state-of-the-art equipment ensure that we can turn your aspirations into reality. Regardless of whether you require specific blends, flavourings, individualised vitamin contents or packaging needs, we guarantee sustainable production and high safety standards.

We have a vested interest in the responsible management of our seas. With our MSC certificates for sustainable fishery and our ASC certificates for responsibly operated aqua culture we contribute to the health of our oceans for future generations.

Henry Lamotte Oils

We supply and produce high quality oils and related products – directly from nature's bounty.

We serve our customers in the sectors food, cosmetics, pharmaceuticals, animal nutrition and care and the chemical and technical industry with almost 100 years of expertise.

At our company headquarters in Bremen, we have a very well-equipped in-house laboratory and a department for quality assurance and product development. Our diverse range of products are filled for end users and for industrial purposes on seven filling plants. Our tank farm capacity exceeds 1,000 metric tonnes.

we create.
we trade.
we care.
