## WHO WE ARE

Founded in 1992 by François and Olivier Bernard

200+ Enthusiastic Colleagues Worldwide

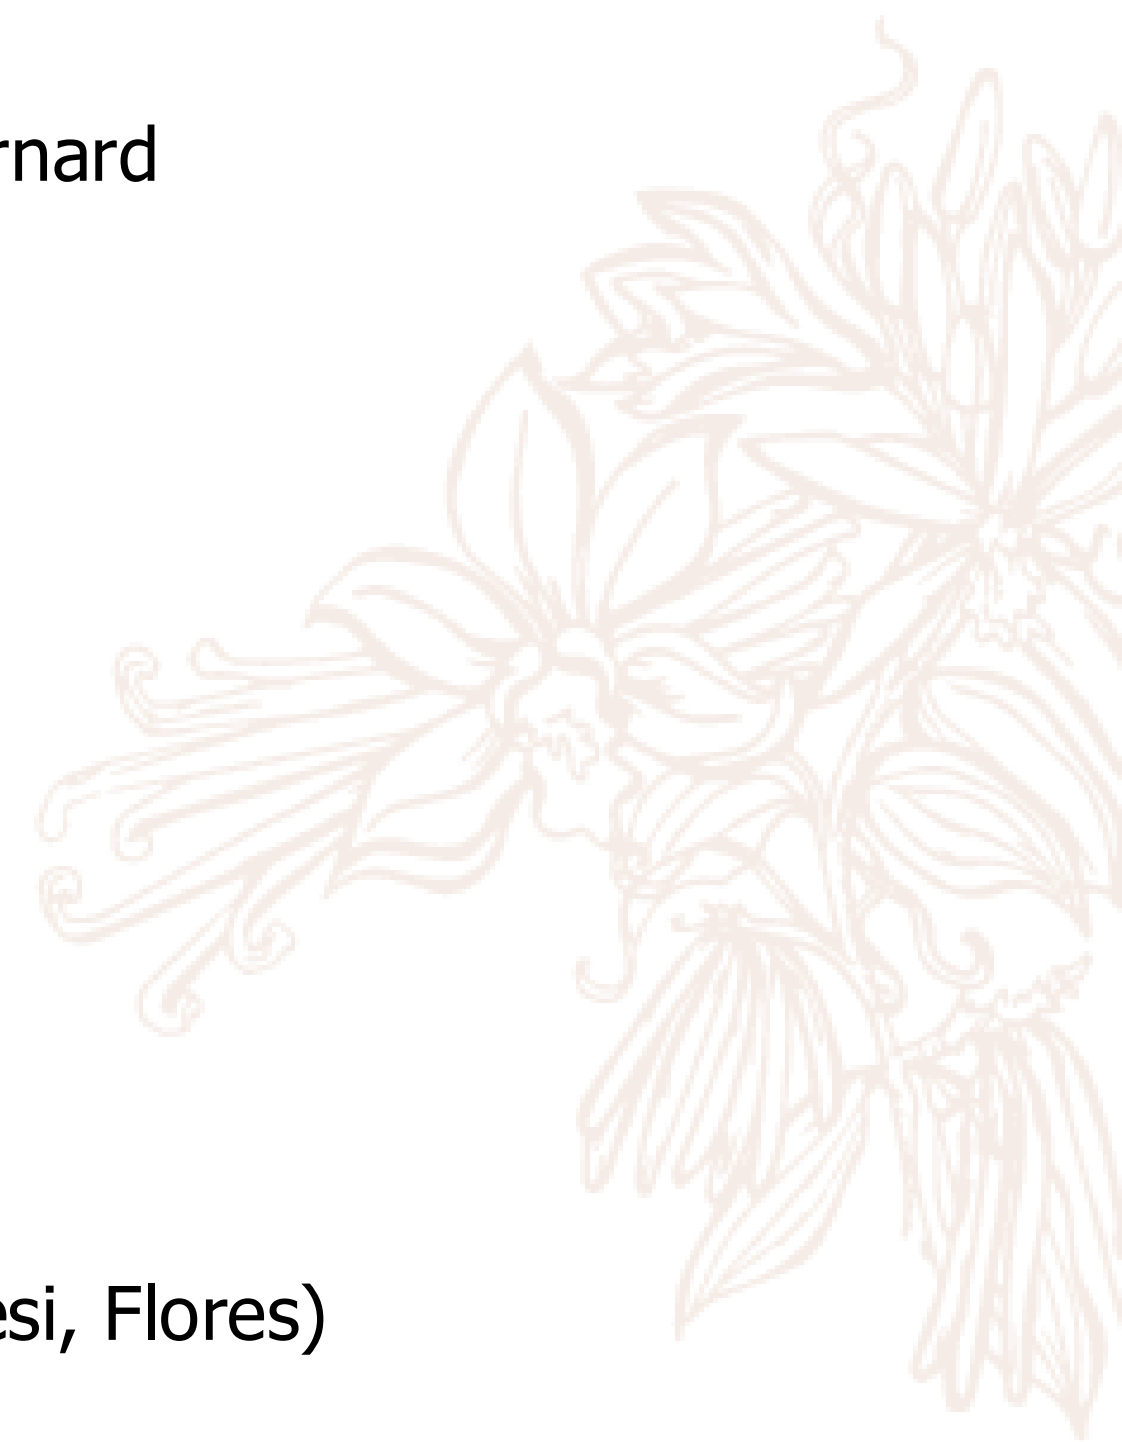

2 Production Sites (Jakarta, Bali)

3 Raw Materials Processing Facilities (Sulawesi, Flores)

Internal Quality and R&D Teams

## WHO WE ARE

**ORIGINE** is one of the few companies that sources and processes premium spices on site in Indonesia, providing unparalleled quality and traceability. We are able to distribute in the US, Europe and Asia thanks to our sales hubs and warehouse facilities based in Colorado, Belgium and Jakarta.

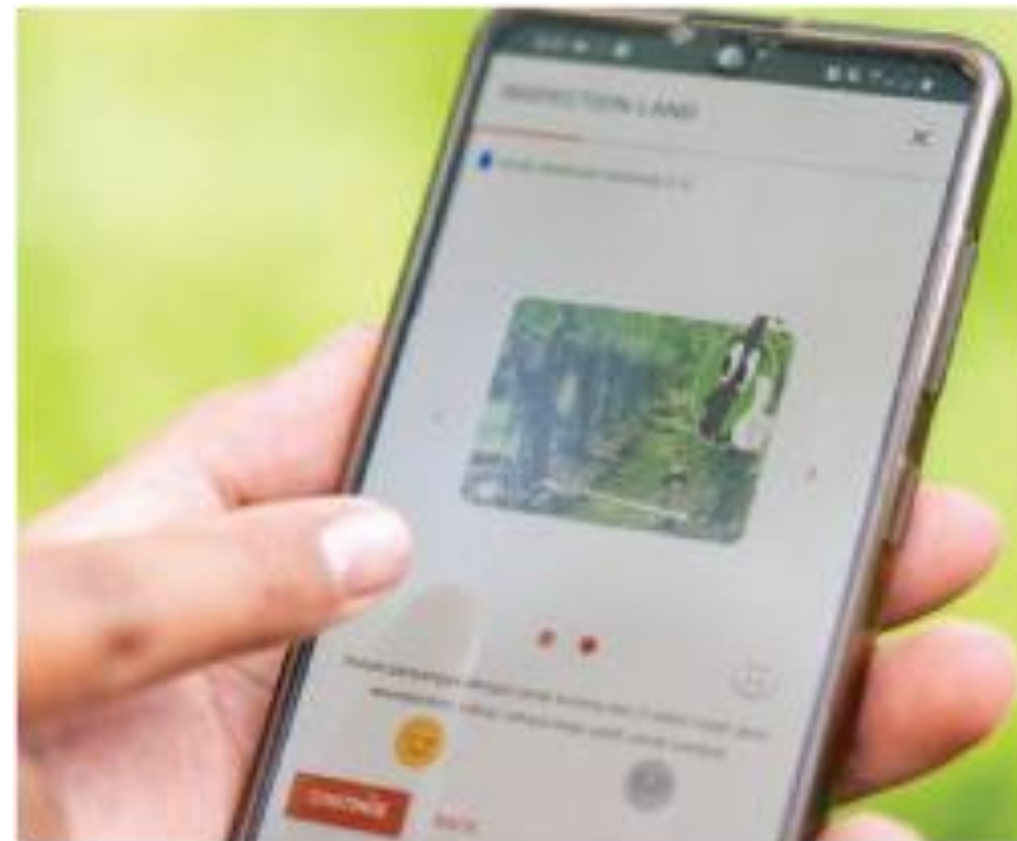

## WHO WE ARE

We source our spices all over Indonesia and process them in Jakarta and Bali where we have dedicated quality and R&D teams that enable us to ensure consistent product quality and customized formulation.

# ADDED VALUES

## Field Officers

Our 30 field officers are always reliably in contact with our network of dedicated farmers. They provide key figures, number of people on the ground, report challenges on the field etc.

## Trainings

They provide continuous support thanks to regular training sessions and workshops to continually improve our farmer's knowledge of Good Agricultural Practices.

## Traceability App

Traceability is one of our top priorities, this is why we have developed our own application that allows us to track the location and performance of each farmer.

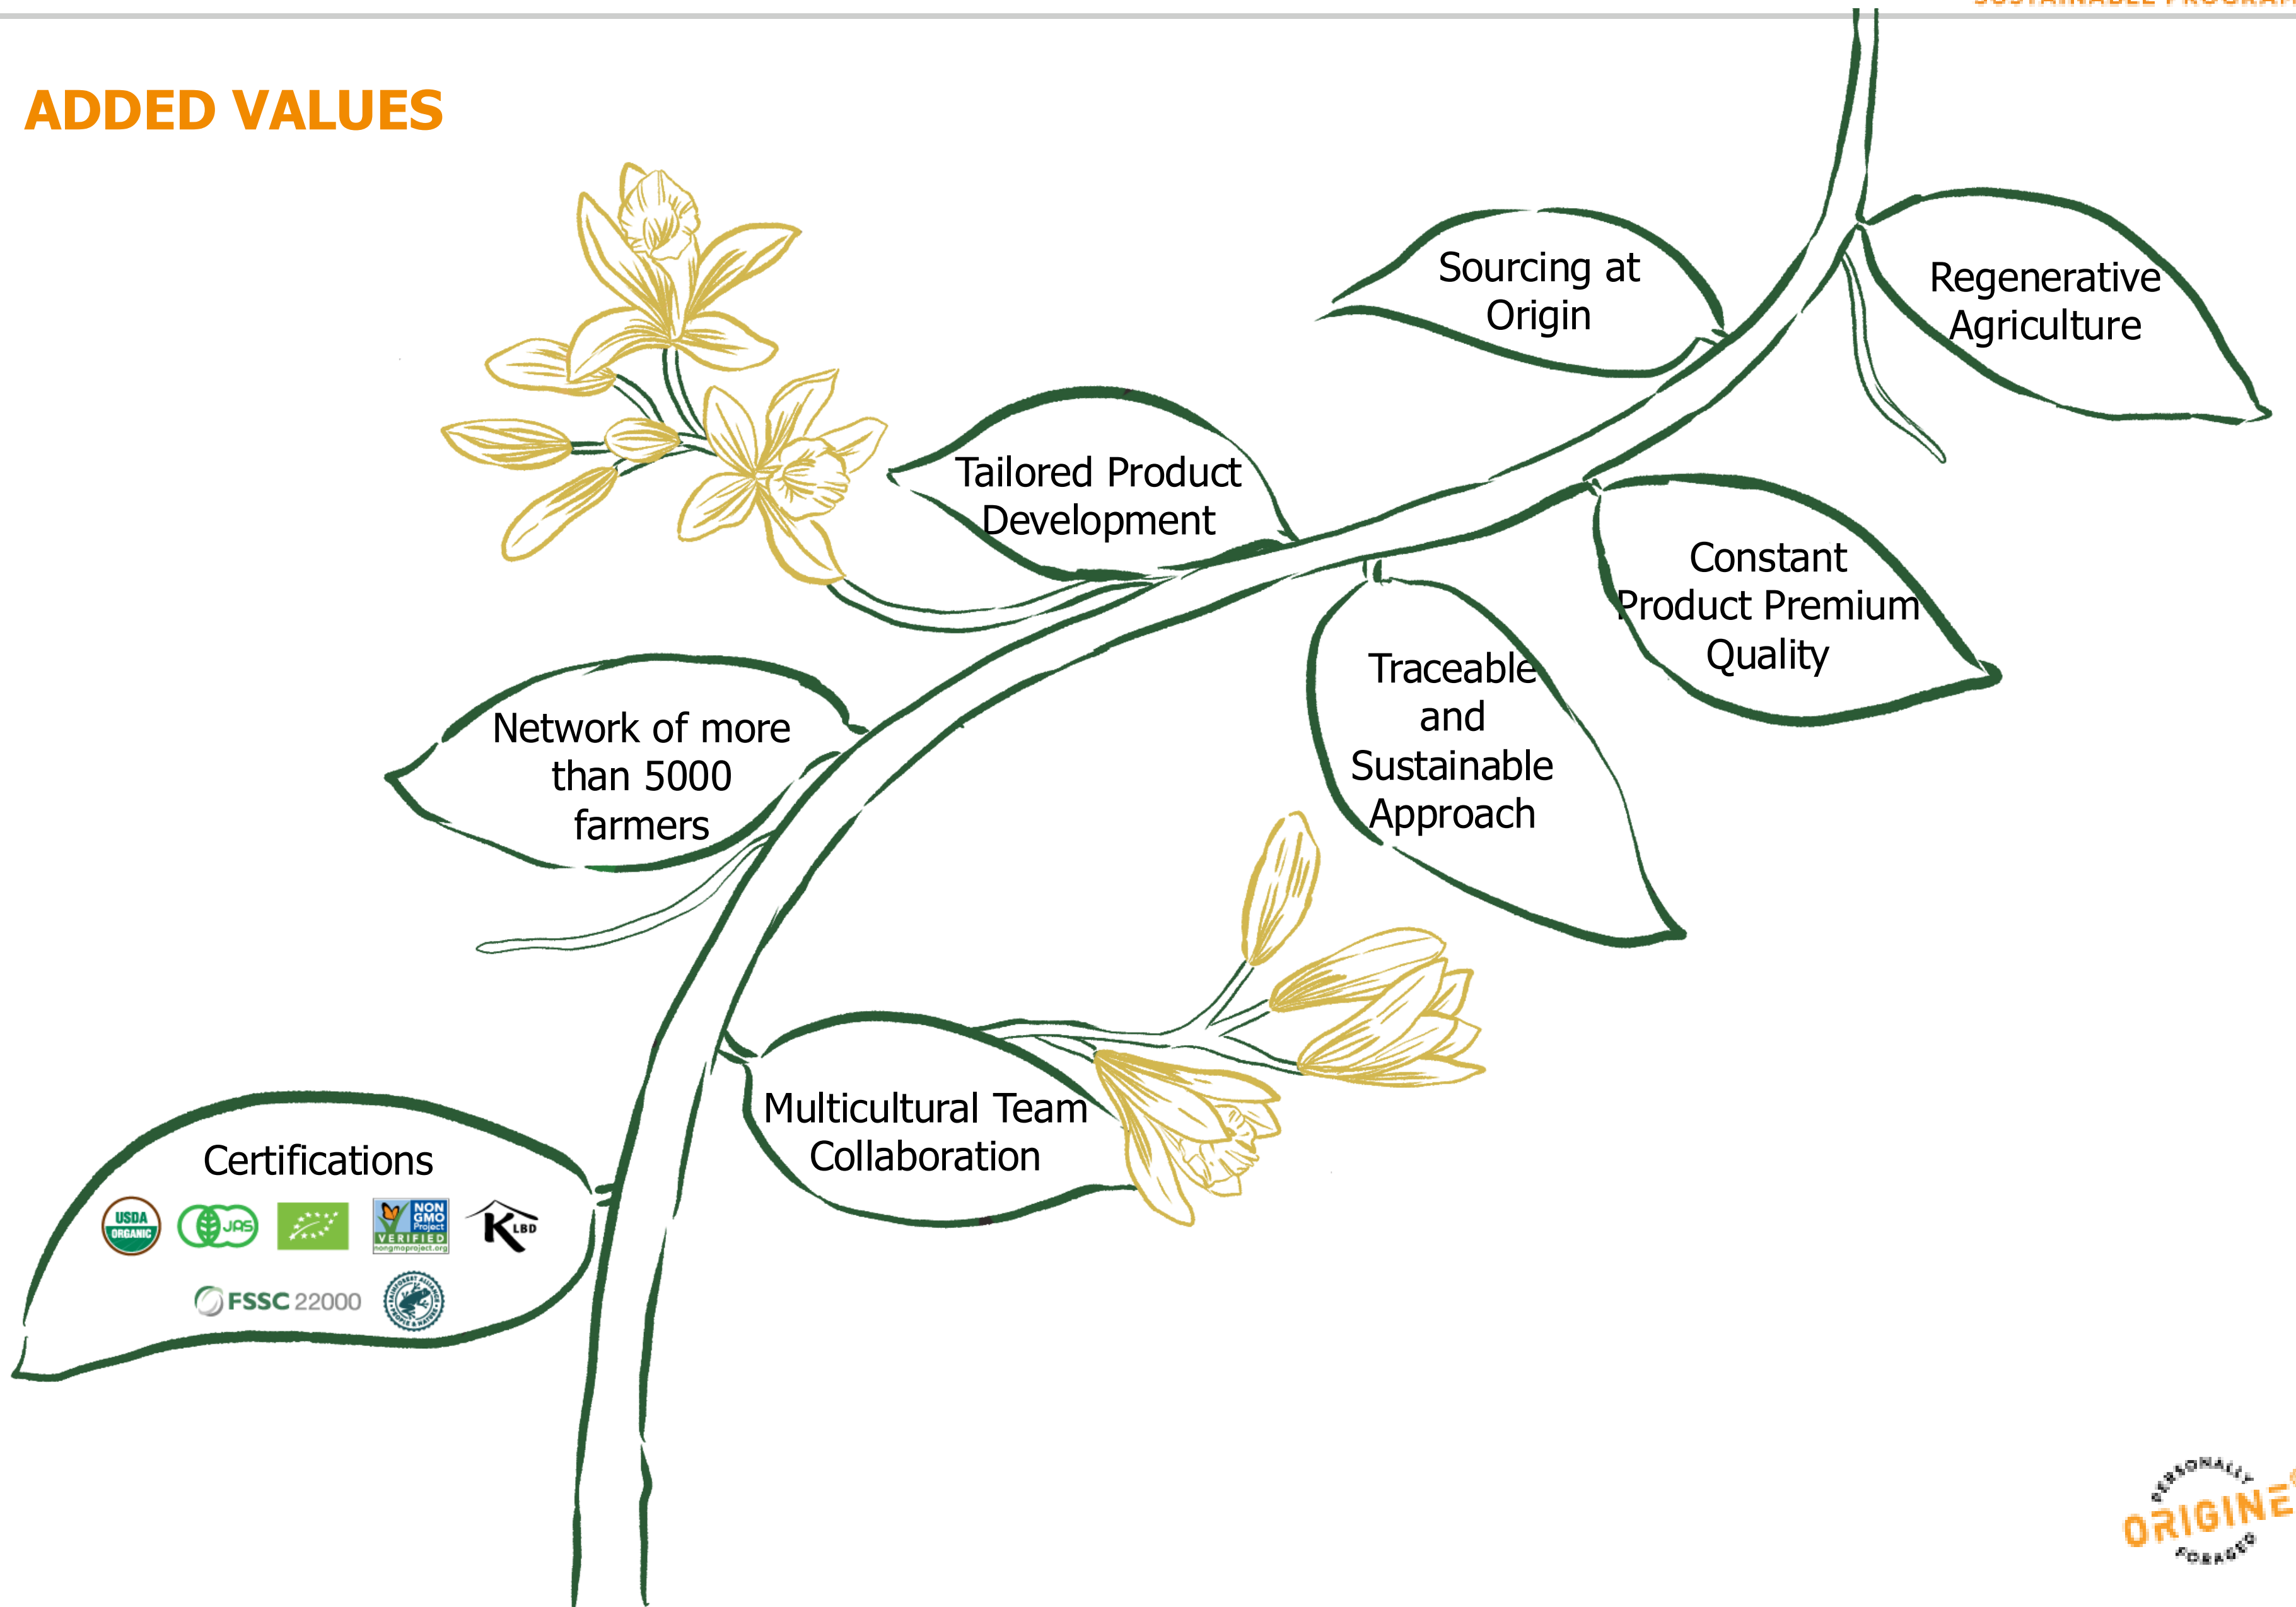

## Internal Standard

Regenerative cultivation is our foundation and drives all our development projects ensuring they are sustainable.

# ADDED VALUES

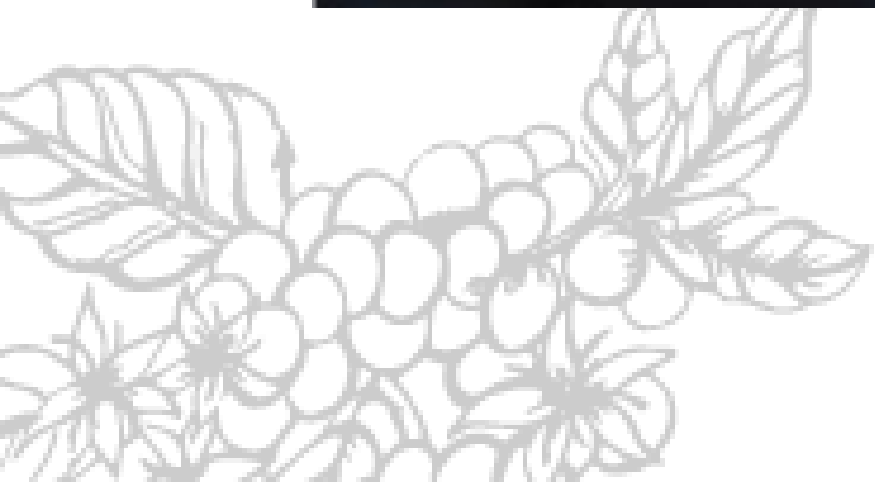

## PORTFOLIO

***We go above and beyond standard food safety testing***, making sure our products always meet the highest standards in our FSSC 22000 certified facilities.

We are able to test various quality parameters such as moisture, water activity, density, refractive index, vanillin content, volatile oil and much more.

We also have a microbiological lab in Jakarta and we partner with certified external lab for any further analysis.

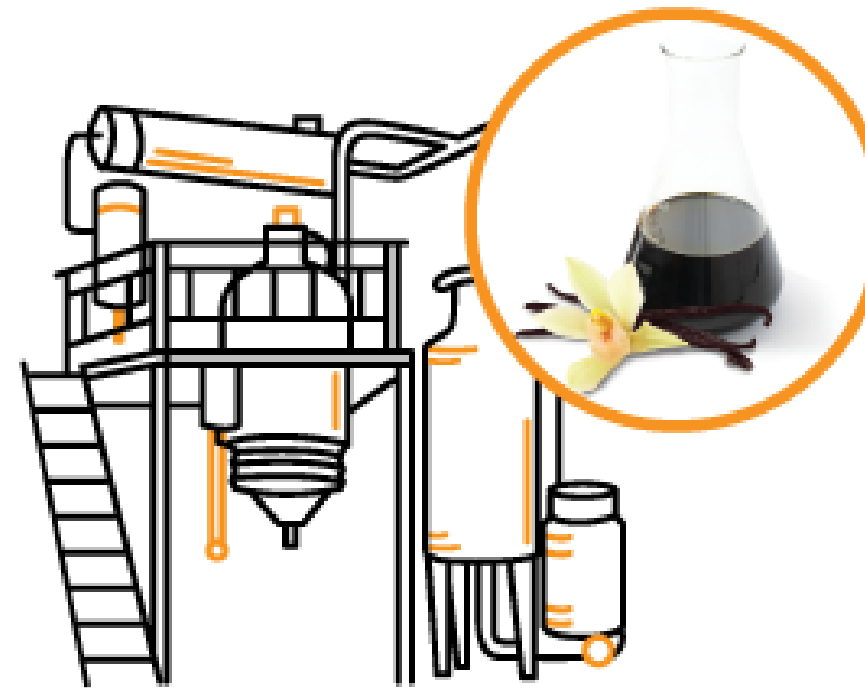

## PORTFOLIO

We offer a wide range of products thanks to our 2 production facilities in Jakarta and Bali.

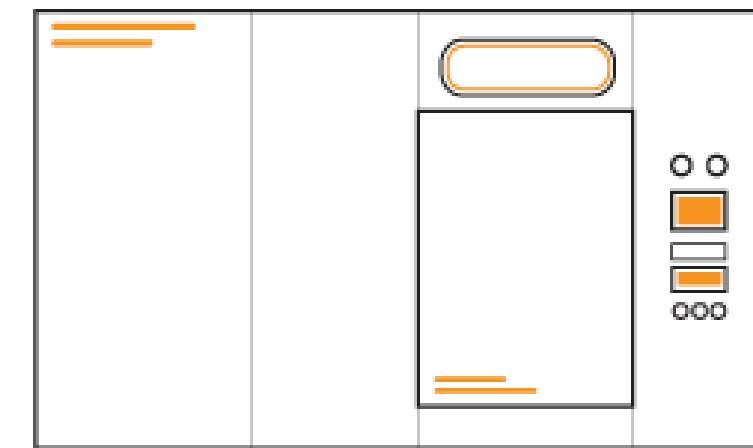

### GRINDING MACHINE WITH VARIOUS MESH

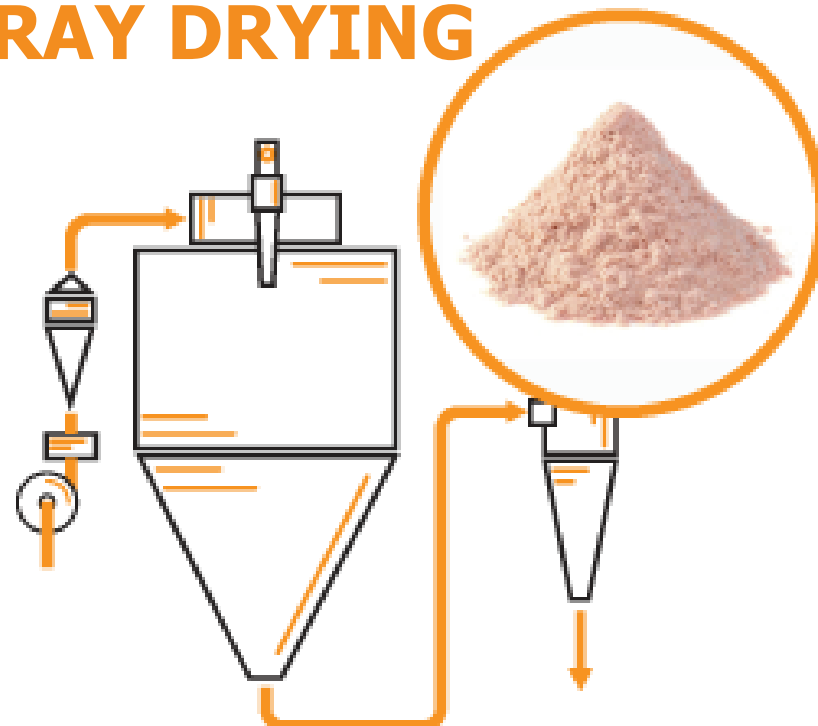

### SOLVENT EXTRACTION

### STEAM TREATMENT

### SPRAY DRYING

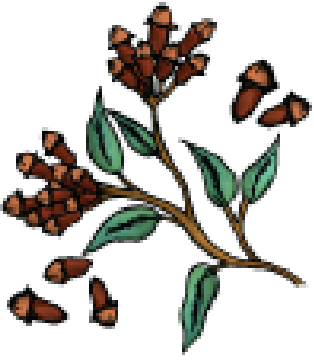

### DISTILLATION

### PRIVATE LABEL PRODUCTION LINE FOR LIQUID EXTRACT
