

Unlock Your Full Potential with DavosLife E3 Tocotrienols

IT WORKS!

Clinically proven to enhance healthy brain function in 2 weeks with a minimal 200mg daily dose

Increase Focus

Learn Better

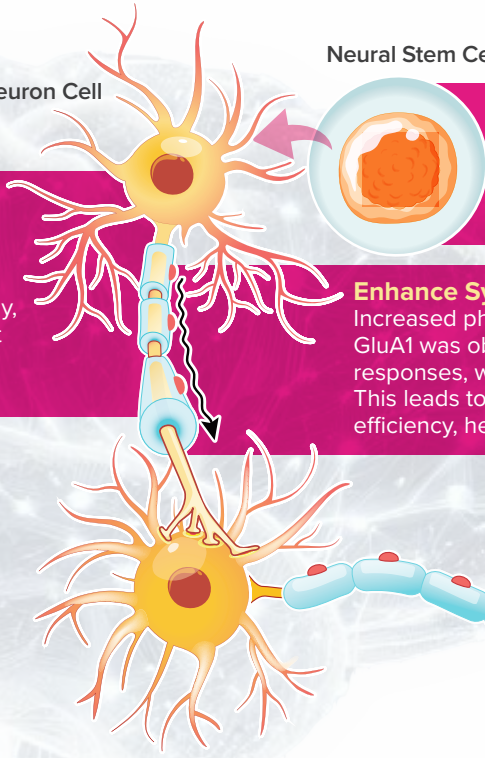

Think Faster

DavosLife E3 Tocotrienols

In Action

Activate Vital Pathways
The BDNF/TrkB signaling pathway, crucial for neuron generation and synapse regulation, was activated by DavosLife E3 Tocotrienols. This pathway, along with the MAPK/ERK and PI3K/Akt pathways, supports the growth and functionality of neuron cells.

Promote Neuron Growth
By increasing cell division and enhancing key proteins (Cyclin D1 and E1), DavosLife E3 Tocotrienols stimulate the creation of new neuron cells.

Enhance Synaptic Responses
Increased phosphorylation of proteins like CaMKII and GluA1 was observed, boosting long-lasting synapse responses, which are essential for learning and memory. This leads to improved reaction times and neural efficiency, helping you think faster.

Clinical Study

Improvement in Memory

Corsi Block Test
↑ **18%**
Digit Span Test
↑ **23%**

Improvement in Attention

Psychomotor Vigilance Task Test
↑ **44%**

Improvement in Cognitive Execution

Wisconsin Card Sorting Test Error
↓ **13%**

Improvement in Neural Efficiency

Reduction in Alpha and Low-Beta Waves

Accreditations

ECOCERT COSMOS is applicable for DAVOSLIFE E3 DVL 50, DVL 503, and DVL 95.
